#### Some notes on the Tiger Cub Tracker Spreadsheet

(All requirements are as 2006 as listed on http://usscouts.org/advance/cubscout/tiger.html

STOP!! Do you have the latest version? This is version v2r6. Please check the following website to make sure you have the most recent version of the file before beginning! www.madsenco.com/scouting.shtml

This spreadsheet will track the progress of up to 15 scouts in your Tiger den.

The spreadsheet contains an individual worksheet for each tiger in your den Tiger 1 through Tiger 15) and a summary sheet, where the progress of all the Tigers can be viewed.

The Summary sheet allows you to enter "Awarded" dates for each activity.

The Tiger worksheets are where you enter all the activity for each Tiger. No entries can be made on the detail or summary sheets - they are calculated from the Tiger sheets.

For each advancement activity completed, enter an **A** for the activity on the appropriate Tiger worksheet (in column J). For each Tiger Track elective completed, enter the number of times each activity has been done (in column O).

If you work as a group on a requirement and want to add the requirement for multiple scouts, hold down the control key and then select al the scouts in the meeting. That will highlight the tabs for those scouts. On one scout, enter in the items earned and it will be entered for all scouts' whose tabs are highlighted. When you are finished, make sure to click on any other tab other than the highlighted tabs and the tabs will no longer be highlighted and you can enter things done for a single scout again.

The spreadsheet will calculate the rest! A "C" indicates that the advancement area (totem, achievement, or ranks) is complete. A "P" indicates that the advancement area is partially complete

All cells with a shaded background are calculated cells - don't type anything in these cells or the formulas will be lost!

I have turned protection on to prevent the accidental typing in calculated fields. If you want to turn protection off, the password is 'tiger' without the quotes.

#### To ADD NAMES FOR Scouts -

**Double click on the worksheet name 'tab'** such as "Scout 1" at the bottom of the sheet and type in the scout's name. His name will then appear on the top of the sheet and on the summary sheet.

(For OpenOffice users, cell A1 will not feed directly from the tab name so you will need to type the name again in cell A1.)

If you are not familiar with tabs, the worksheet tab for this sheet is 'Notes'.

By double clicking the worksheet name, Excel will allow you to rename the worksheet.
